

Bush Craft Party Information

Timings

Parties are 2 hours long and will consist of 2 pre-selected activities followed by a campfire meal. Please ensure you arrive 10 minutes early as the so we can start the session with all the children on time.

Campfire Meal

Parties: Sadly, we will not be able to offer group cooking around the campfire. However, the meal will be prepared by our kitchen team in the same way and will include campfire sausages in a roll with ketchup or bbq sauce, crisps and an individual snack bowl containing 4 chocolate snacks. All dietary requirements, given notice, can be catered for. All food will be pre-prepped in a clean environment.

Birthday cake – we recommend sparklers instead of candles. However if you do bring candles these must be fanned out or put on an individual cake for the birthday child only.

Clothing

Please ensure that your child has the appropriate clothing for outdoor activities. Trainers, walking shoes or similar, a waterproof jacket, sweatshirt or fleece and we recommend long trousers however, shorts can be worn in hot weather. Ensure all extra items are named and are carried in a small rucksack or bag. In the event of hot weather, we would recommend that provide a sun hat, sun cream, spare clothing etc. as appropriate. **No crocs, flip flops or sandals to be worn. Guests will not be permitted to play if they attend wearing these.**

Weather

We are an outdoor focused activity camp with the ability to run activities under cover. We plan to operate in most conditions but in extreme cases (e.g. heavy snow or exceptionally low temperatures) we may have to alter the programme or postpone a session.

Location

For full details please visit our web site at www.ruggedearthadventures.com

Our address is:

Sutton Green Garden Centre

Whitmoor Lane

Woking

GU4 7QB

Please use the DIRECTIONS on our website as well as postcode. The Garden Centre is situated at the junction of Whitmoor Lane/Guildford Road.

Activities

Shelter Building: One of the first rules for outdoor survival. Children will build a variety of improvised survival shelters using natural materials they gather from the land. Mini shelters are the perfect tool to demonstrate these skills.

Fire Lighting: One of the most important bush craft survival skills. You will be taught its many uses and methods of lighting both modern and ancient. Once lit the children will get an opportunity to roast marshmallows over their own fire!

Traps & Snares: An activity for the older guests. (9yrs +) Our Bush craft experts teach a variety of techniques which the children will get a chance to practise. A few eggs may lose their shells in the process of the demonstration traps!

Archery Stalk (soft darts): One of the oldest skills known to man used for hunting and battle. More exciting than the average fixed point range children will stalk through the woods to find their targets.

Woodland Arts & Crafts: Popular with our younger guests. After gathering fur cones, sticks, leaves, stones, mud and much more from the woods and meadow it's back to the art tent to let their creative minds take over. At the end of each activity, children will be required to use hand sanitiser or wash their hands. All guests will be briefed to stay 2 steps away from each other, where possible. Seating arrangements are 2m for briefing and eating. The activity equipment will be cleaned down after each use to prevent high touch areas.
